

■ Whitepaper – CapybaraRip (CAPYRIP)

1. Introduction

CapybaraRip (CAPYRIP) is a meme token built on the Solana blockchain, inspired by the capybara — a global symbol of tranquility, companionship, and good vibes. The project was created to unite a worldwide community around humor, meme culture, and internet virality, offering a light, transparent, and fully community-driven ecosystem.

Unlike projects that promise complex or unreachable utilities, CAPYRIP focuses on something simple yet powerful: memes, fun, NFTs, and creative experiences that bring people together through digital culture.

2. Value Proposition

CAPYRIP is more than just a token — it's a cultural movement. Our uniqueness lies in:

- Representing the capybara as the mascot of an inclusive and global community.
- Creating thematic NFT collections featuring capybaras that pay tribute to famous memes, personalities, exchanges, and even 'dead' memes from the past.
- Offering simple and fun mini-games that strengthen community engagement.
- Promoting viral campaigns that spread humor and attract new people to the crypto ecosystem.

CAPYRIP is 100% community-driven — no presales, no false promises, and no privileged allocations.

3. Official Tokenomics

Blockchain: Solana

Ticker: CAPYRIP

Total Supply: 1,000,000,000 CAPYRIP

Distribution:

■ Burn (permanent): 593,449,655 CAPYRIP — 59.34% of total

■ Liquidity (pools): 200,000,000 CAPYRIP — 20.00% of total

■ Future Listings (reserved): 50,000,000 CAPYRIP — 5.00% of total

Circulating Supply:

Current Supply: 406,550,345 CAPYRIP — 40.66% of total (Total Supply – Burn)

■ All data can be verified on-chain via Solscan or any compatible Solana explorer.

4. Distribution & Transparency

CAPYRIP was launched through a fair launch, ensuring equal access for everyone from the start.

A significant portion of the supply (59.34%) was permanently burned right after launch, reinforcing scarcity and increasing the token's symbolic value.

Of the remaining supply:

- 20% was allocated to initial liquidity on DEXs such as Raydium and Jupiter, ensuring open and transparent trading.
- 5% is reserved for future listings on smaller and regional CEXs, as per the roadmap.
- The rest is circulating among community holders.

5. Token Utility

- Meme Capybara NFTs: thematic collections representing classic memes and parodies of exchanges and aggregators.
- Exclusive Holder Benefits: future partnerships may offer perks to NFT collection owners.
- Community Mini-Games: light and fun games integrated into the ecosystem.
- Campaigns & Events: creative engagement initiatives with the community.

6. Roadmap

Phase 1 – Launch

- Token deployment on Solana
- Initial DEX listings (Raydium, Jupiter)
- Launch of official website and communities (Telegram & X)
- First wave of official memes

Phase 2 – Engagement

- Viral campaigns and collaborations with content creators
- Launch of the first Capybara Meme NFT collection
- Growth of the global community
- First listings on CEXs

Phase 3 – Expansion

- Strategic partnerships with aggregators and exchanges

- NFTs with exclusive benefits for holders
- Launch of community mini-games
- Expansion to regional and mid-tier CEX listings

Phase 4 – Consolidation

- Listings on CoinGecko and CoinMarketCap
- Advancement toward listings on major CEXs and liquidity expansion
- Ongoing NFT collection growth
- Ecosystem evolution with new partnerships and mini-games
